

HAMZA
WATERTIGHTSOLUTIONS
SINCE 1949

The background of the image is a solid dark blue color. Overlaid on this background is a pattern of thin, light blue lines that form concentric, wavy, and irregular shapes, resembling a topographic map or a series of ripples in water. These lines are more densely packed in some areas and more spread out in others, creating a sense of depth and movement.

**“LIFE BEGINS
WITH WATER,**

AND PROGRESS
BEGINS WITH US.”

WORDS BY THE CHAIRMAN

It all started with a thought, a thought that the natural gift of water is ought to be shared among all humanity.

75 years ago, we've started our journey to provide top-notch water solutions, and across the years we've maintained our promise to grant our services to an array of sectors. Today, we've grown into a team of talent, expertise & innovation that warmly works to serve millions of people across Egypt every day...

We're thinking ahead, to allow future generations the value of enjoying water, every minute of every day & we are proud.

This is just the beginning, we are engineering & transforming the industry with the vision to become the region's producer for integrated & sustainable water solutions with strong partnerships that carve the future ahead. Our commitment to quality-centric products, remains at the core of our mission.

Safe water & adequate sanitation for all, the United Nations Sustainable Development Goal 6, is at the heart of social well-being, inclusive growth & sustainable livelihoods. Our cities, our industries & our agriculture all depend on our safeguarding to water. We will continue hand-picking our partners, those acquiring the latest technologies with products offering sustainable solutions at the core.

Life begins with water, and progress begins with us.

Magdy Hamza,
Chairman of Hamza Group

WHO WE ARE

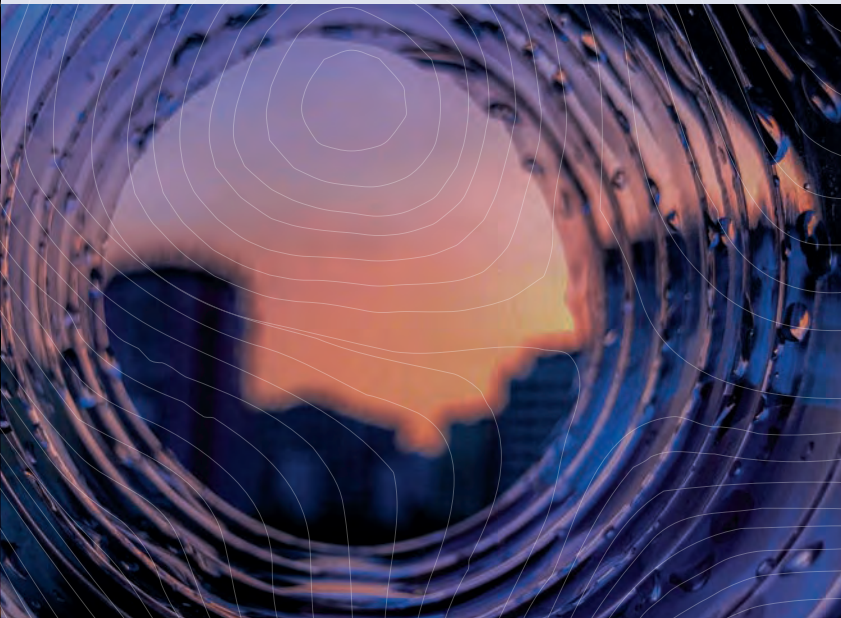

OUR VISION

At Hamza Group, we are focused on becoming the region's producer for sustainable & integrated water solutions. This is our vision, to become the leader name in such a huge domain.

OUR MISSION

Our mission is to offer integrated water solutions that provide sustainability through our matchless, diverse product portfolio, technical skills, persistence & efficiency, in addition to our product innovation. We are working on transforming the water industry to build lasting relationships with our clients.

ARCHETYPE

VALUES

PROMISE

Pioneer

We have the mission to pave the path forward for the water solutions industry, leading by example & learning by doing.

Always introducing groundbreaking innovations & solutions techniques that not only benefit us, but benefit the entire category.

Engineer

Our technical expertise, relentless agility & efficiency, coupled with attention to details, help us turn the impossible into a possible reality.

Our advanced manufacturing techniques with global accreditations provide our consumers with exceptional quality & reliability.

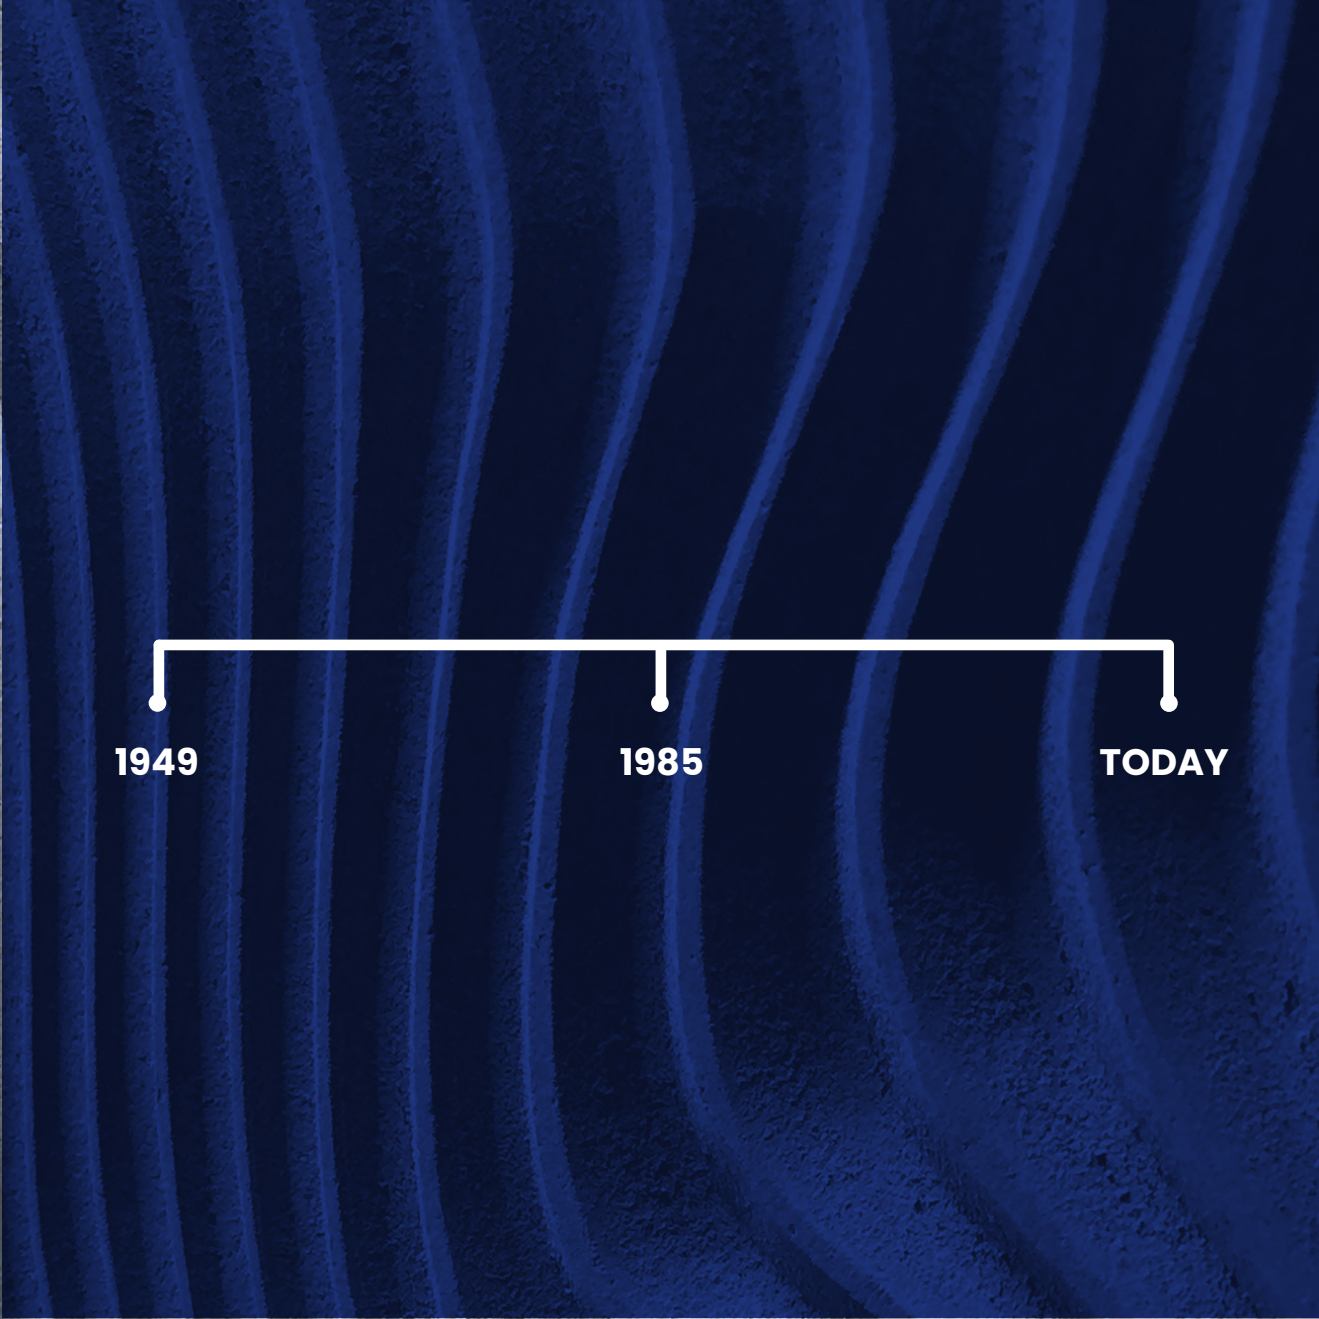

Leader

We believe in integrity, honesty & respect to operate in the water solutions industry, with the motivation to lead & empower our stakeholders with support first.

Having the expertise & competency to lead the market by acting as the entrusted advisor & empowering our stakeholders through expanding their knowledge & skills.

LOOKING AT HOW WE STARTED

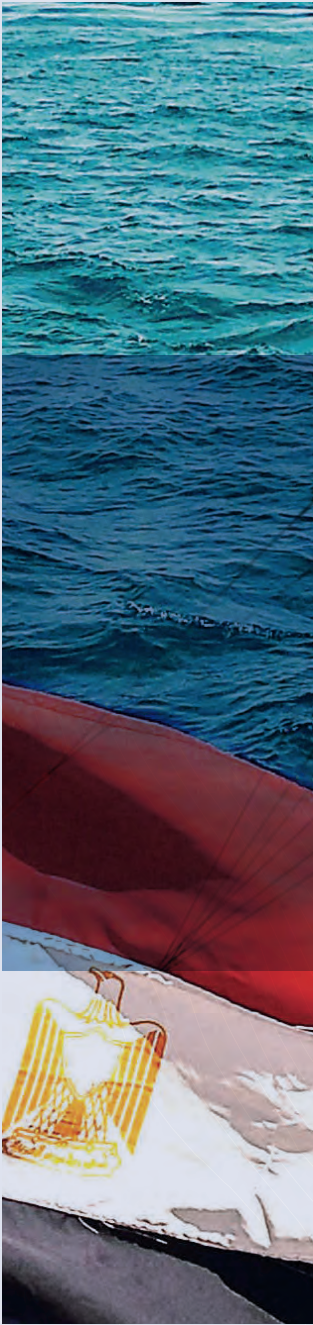

Back in the time, in 1949, a man with a great vision started what's 70 years later, will have become a breakthrough in the water solutions industry. Mr. Abdel Wahab Hamza was determined to make the world witness an experience like no other, speaking of water supply, drainage systems & firefighting. No matter the cost, no matter the effort, he knew that 'quality' is what builds a name that lives on, a legacy. Between 1949 & 1985, Hamza Group delivered such an elite quality to many different businesses; hotels, commercial buildings, hospitals, offices, factories, schools & governmental institutions. Today as we speak, we are proud that Hamza Group is the leader in this industry across the MENA region. Pioneering the industry & introducing the first PP-R (polypropylene plastic) pipes to the market with Aquatherm, the company became the leader in the field of water solutions.

A horizontal timeline is centered on a dark blue background with vertical wavy lines. A white horizontal line spans the width of the timeline, with three vertical tick marks pointing downwards. Below each tick mark is a label: '1949', '1985', and 'TODAY'.

1949

1985

TODAY

MADE FOR EGYPT IN GERMANY

With the passage of years, in 1997 Hamza Supplying Co. was founded in the market, introducing products with the matchless German quality, ones that precisely fit Egypt.

We have always regarded our purpose & name as massive, so when we decided to come with an exceptional addition, we brought the very first polypropylene plastic pipes to the market, until we have become the regional representative for massive German companies like aquatherm, Vaillant, BWT, Wilo, Schell, Aco, Zehnder, Wavin.

INTRODUCTION OF HAMZA SUPPLYING CO.

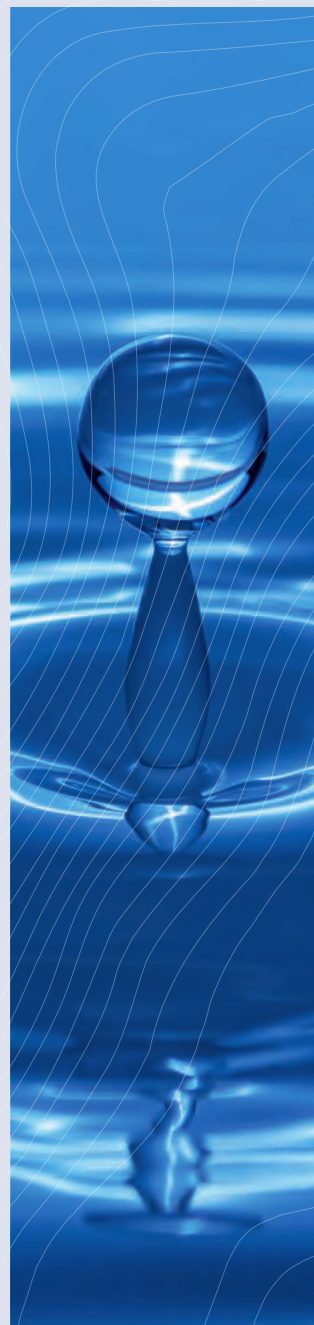

Impactful partnerships for long-term solutions.

WHERE WE STAND

Mr. Magdy Hamza, CEO & founder of Hamza Group, had it ideally put when he said, "We want to be synonymous to Water." We want to be the name that instantly comes to mind when you request water solutions. Thanks to our credibility & expertise, our portfolio that includes significant names in the field & the reputation that is known all across the world, we are committed to make you forever rely on a solid name.

REALIZATIONS FROM THE WORLD

Our partnerships across the years, and our commitment to being an exclusive companion for water solutions in Egypt & the MENA region, have made us validated & approved by esteemed quality certifications from Egypt, Holland, England & Germany.

TODAY, WE'RE CHARTING THE INDUSTRY OF THE FUTURE

20 YEARS FROM NOW, DEMAND FOR
WATER WILL BE 40% HIGHER THAN IT
IS TODAY.

The ever expanding water demand of the world's growing population & economy, combined with the impacts of climate change & consumption, are making the water scarcity a reality, and with it, we are witnessing severe damage to livelihood, human health & ecosystems.

Supply expansion & efficiency improvement are the only ways to close the gap.

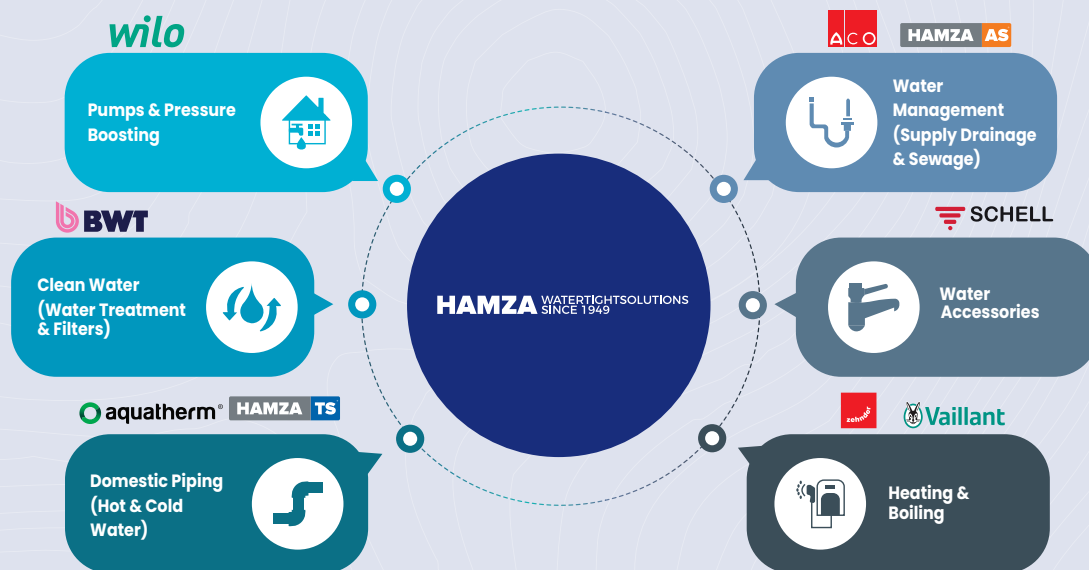

The way we envision & manage water, is to expand its reach of quality to every household, to every family, to every person.

Watertight Solutions 2.0.

THROUGH TOP-NOTCH HIGH QUALITY WATER SOLUTIONS SYSTEMS

With a team of more than 275 employees serving the commercial business & 107 employees in the industry, managing a diverse product portfolio.

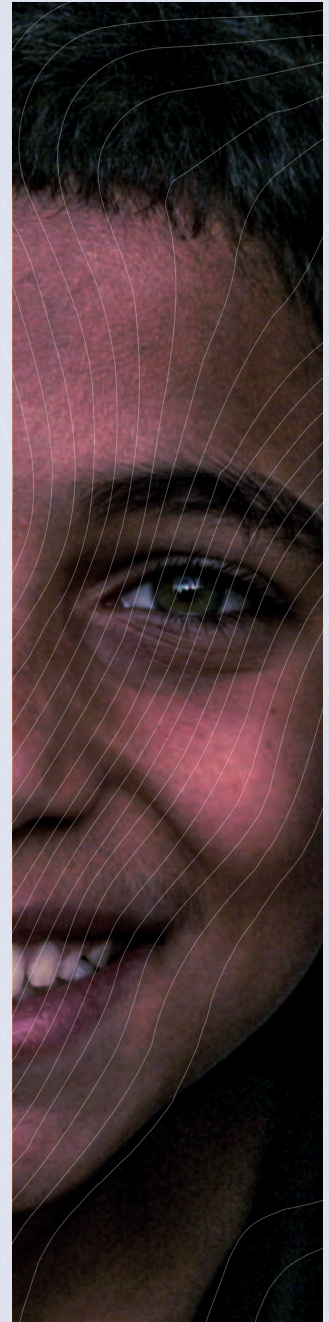

INSIDE OUT/
OWNING THE
JOURNEY OF WATER

GOING BEYOND

Creating solutions for long-term areas of growth to shape our people's lives & our society over the coming decade, transforming the industry to benefit all, not just all one.

HEATING & BOILING

Vaillant Group is a global market & technology leader in the fields of heating, ventilation & air-conditioning technology. For over 140 years, Vaillant has been following a strategy designed to achieve growth through the production of sustainable & responsible system solutions & services for heating, cooling, hot water & renewables. Vaillant offers solutions that make consumers' lives easier & provide greater convenience in the present through products that are becoming increasingly efficient & environmentally friendly.

www.vaillant.com

CLEAN WATER (WATER TREATMENT & FILTERS)

BWT develops the best water treatment products & services anywhere ensuring hygiene, safety & health in people's day-to-day contact with water, continuously pursuing their research to develop innovative solutions & work to further enhance our products. BWT products & services aim to improve the processes for filtration, filter media, ion exchange systems for demineralization, softening, decarbonization, pure steam generators, pure water distillers, ultraviolet (UV) systems, ozone generators, ion exchanger membranes, electrolysis, electrodialysis, electrodeionization, chlorine dioxide generators & metering pumps.

LOCAL MANUFACTURING

Our Brands |

HAMZA AS

HAMZA TS

HAMZA GS

WATER MANAGEMENT. (SUPPLY, DRAINAGE & SEWAGE)

Hamza AS is a locally manufactured, globally certified WaterWise solutions for its sound proof, hot water piping system that is suitable for all pressurized sewer pipes available in dimensions DN 50 to DN 250. Pipes & fittings are made of Astolan® (mineral filled polypropylene) so that continuous low noise performance even for the most demanding applications is designed with confidence & no compromise. The system offers a reliable backbone for water delivery in efficient & innovative means, providing easy installation, reduced weight compared to cast iron & secure connections with reliable push-fit jointing to optimize drainage performance.

www.hamza.com.eg

WATER AND NATURAL GAS NETWORK SYSTEMS

Hamza TS which stands for Total Security is a P.E. system for potable water, sewage & natural gas applications offering total security & a longer service life compared to traditional P.E. pipes. Our systems are certified without sand embedding & are suitable for all modern welding techniques. Hamza Group is also the only producer of multilayer HDPE pipes in Egypt under the license of the system pioneer, Wavin, with inner & outer protection layers made of the innovation & extremely robust plastic XSC 50 & a middle layer made of P.E. 100. It is designed for any soil installations with sharp edges & rocks, without the need for sand bedding around the pipes & can be applied for water supply, sewage & gas applications.

www.hamza.com.eg

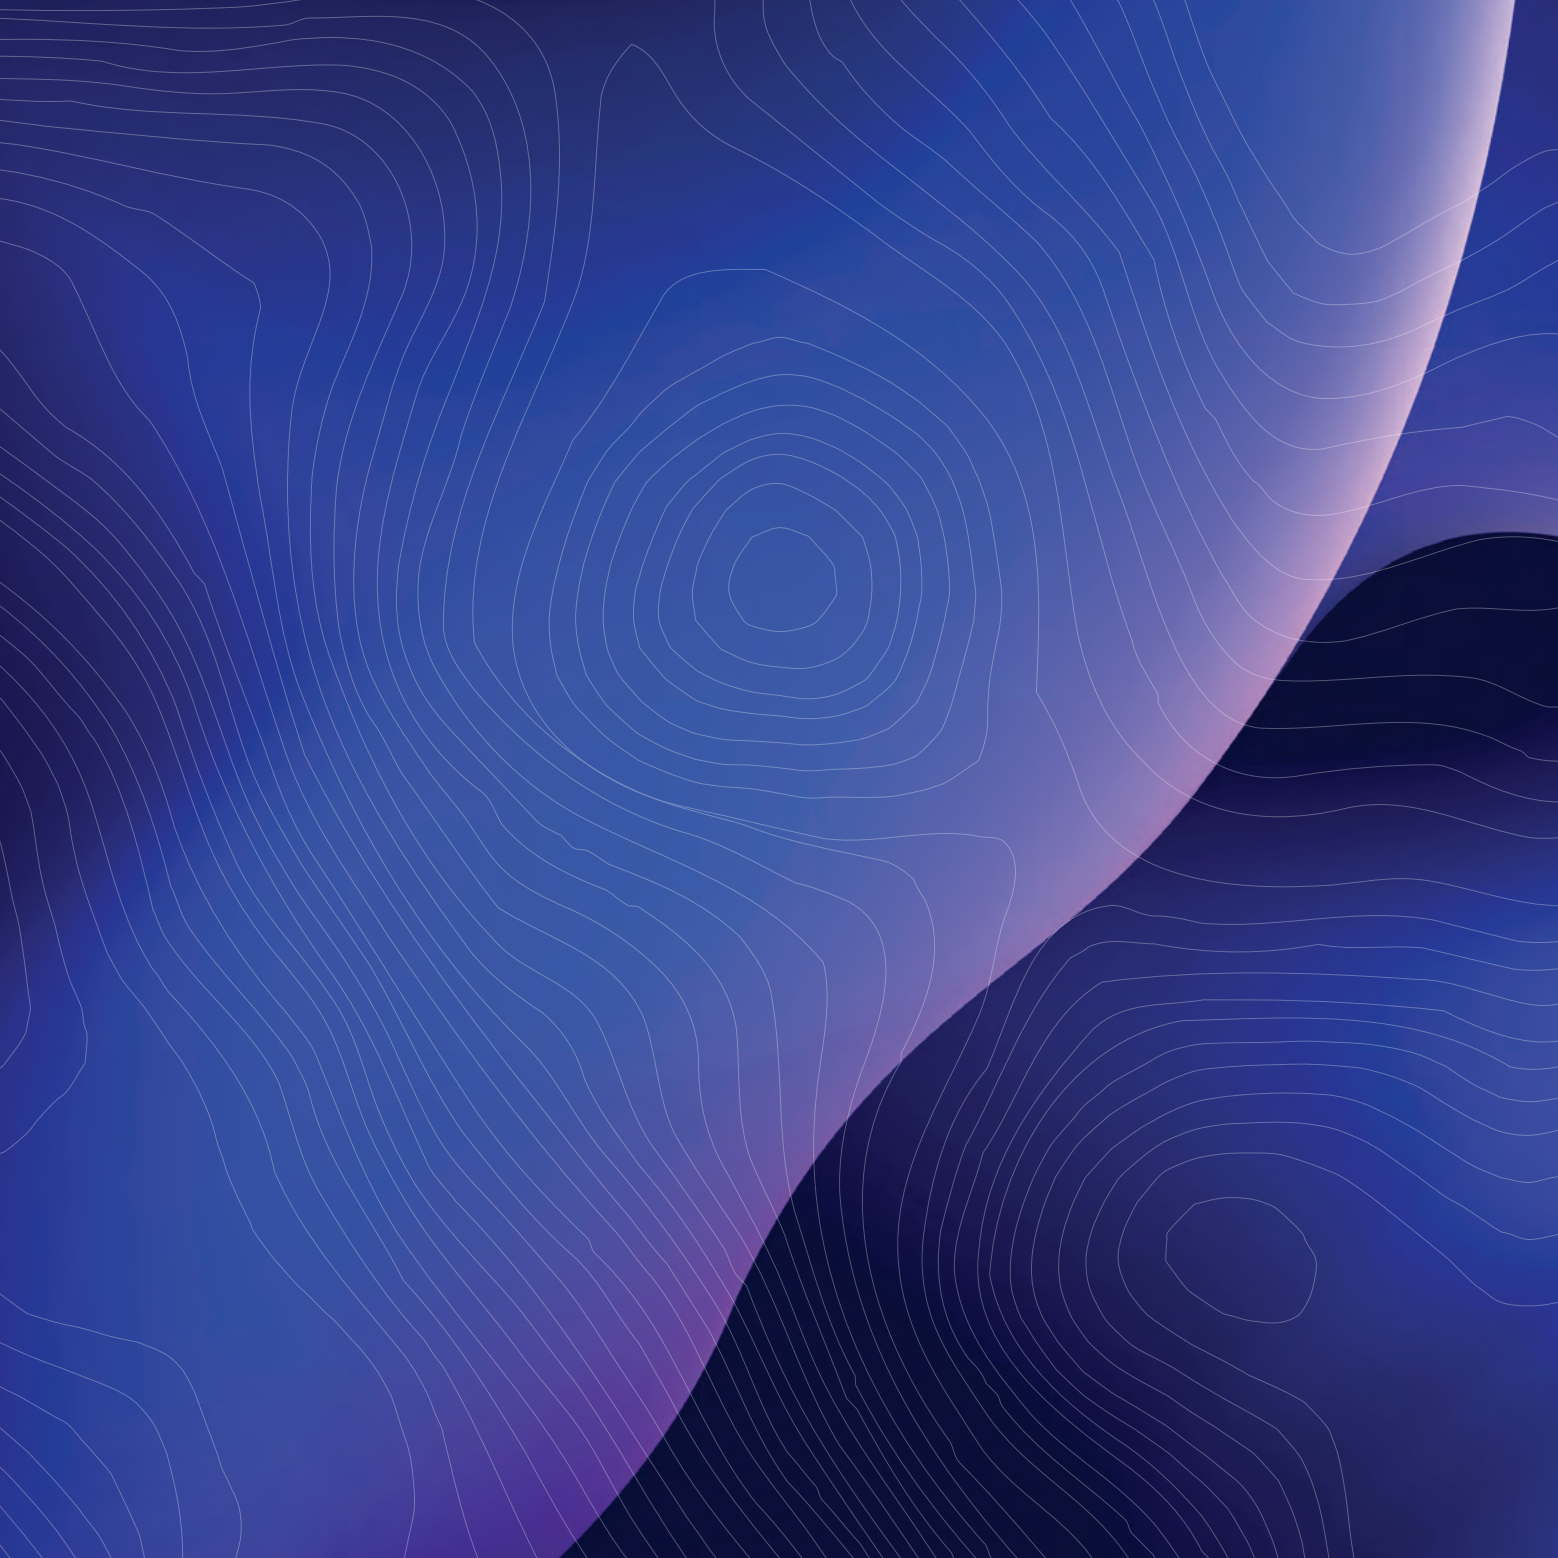

DRAINAGE SYSTEM

HAMZA GS

Hamza GS channel drainage systems, cast iron grating & drain ground solutions provide a wide range of applications for channel drainage in domestic, vehicular & pedestrian areas. Our products provide a lightweight yet robust solution with high strength & rigidity channel drain design made from polypropylene, with an additional edge protection offering an attractive & durable finish.

SUSTAINABILITY

Over the course of 70 years, we have accumulated the experience that makes us perfectly equipped to provide unparalleled products & services. At Hamza Group, we take pride of the proficiency, novelty & modern technology, to introduce the best integrated & sustainable water solutions in Egypt. We are championing the national strategic agenda to contribute to a more resource-efficient economy, achieving green & sustainable growth for future generations. It is through carefully selecting our partners, that we ensure the best for people, planet & prosperity.

A Major Cornerstone

OUR VISION

is inseparable from the
national & global pursuit of
sustainable development

Our sustainable strategy is to allow for a better world, inside each home & the world around us. Our vision to become the region's leading sustainable & integrated water solutions is the driving force for our employees, offering energy-efficient, environmentally friendly & resource-saving solutions for people's homes.

6 CLEAN WATER AND SANITATION

OUR ROLE

Fit for purpose & impact will center
around SDG 6
clean water & sanitation

This is where all our core sustainability strategy will derive from, and probably lead the way as well to the activities of the foundation; including equitable access to drinking water in governorates, water-use efficiency through our product portfolio & PP-R pipes, integrated water resource management & the participation of the community in improving water & sanitation management.

But we will not stop here,
our commitment to sustainability
will also cut across multiple SDGs.

COOPERATION

STEMMING FROM DEDICATION

Hamza Group is on a quest to grant clients & customers a world-class attribute that allows for the highest return on products, one that is evident in durability, maintenance cost & excellent installation. All of that comes very clear through getting our staff yearly training in Germany in order to be mindful of the latest technology & knowledge. In addition to that, we offer workshops for plumbers, in terms of products & techniques. Our team also pays special attention towards consultants & contractors, and we make sure we arrange visits in accordance to our international partners to ensure the ultimate satisfaction of our clients & consultants.

HAYAH KARIMA PARTNERSHIP

Our collaboration with Egypt's presidential development initiative, 'Hayah Karima,' is one we are proud of. Our commitment to providing clean water & sanitation, SDG6 is embedded within our promise for future generations ahead.

COMMUNITY SERVICE

One way to give back to our community, is leading the way for clean water systems in a number of governorates all across Egypt. That is what we granted 3000 houses through our Hamza Community Initiative that we started in 2019. We did not stop there; we are seeking to expand our initiative's activities through other organizations. One way to dedicate for the best, for each & every one in need.
